

NATIONAL TRANS YOUTH NETWORK

Extract from Network bulletin.

Conference

Thank you to those that attended this years Trans Youth Conference at Durham University on the 12th November of this year. Though less numbers than previous years, the conference was an extreme success and some of that has to be down to the venue, a big thank you to the University and to Billiejean and Lewis from DISC in the North East, who as hosts arranged for us to use the university.

Groups from Scotland, Cheshire, Manchester, Bradford, Blackpool joined those from the host area and some of the students from the university.

At the conference we gave Bernard and Terry Reed from Gires awards for their outstanding work over many years as allies towards the trans community, both adults and youth. Gires have been very supportive members of the network and we value the help they've provided us. Thank You once again Bernard and Terry
